JD-BASED TRAINING

PIBM's course curriculum is developed by integrating the Job Descriptions & KRAs of various Job Profiles from various domains of the Industry into the training methodology making the Curriculum Outcome & Competency Based.

SCPS

SCPS stands for Sector - Company - Product/Service aspect of learning any Management concept. With the SCPS methodology, any topic which is taught is explained with real-world application in various sectors, on different products or services of several companies.

SECTOR TRAINING

The objective of management education at PIBM is not only to train students in Business Theories & Concepts but also to make them understand where the Real Practical Application lies in various sectors or industries. We understand that every sector is different and PIBM students are trained keeping that in

mind. Trainers at PIBM ensure that students have the intelligence and the intellect to deal with any challenges faced in their sector of specialization.

PIBM STUDENTS ARE TRAINED EXTENSIVELY ON THE FOLLOWING SECTORS

ADVANCED INDUSTRY - ALIGNED TRAINING

CORPORATE INTERACTION - EVENTS, SESSIONS, WORKSHOPS

At PIBM, students gain practical exposure to real-world business challenges through regular industry interactions. Our partnerships with over 1000 MNCs and 850+ corporate leaders provide training in leadership, problem-solving, creativity, and communication. Events like Corporate Weekends, Pioneer Convergence, and industry visits ensure experiential learning, while panel discussions and knowledge-sharing sessions with top corporate heads offer ongoing opportunities for direct industry engagement. This holistic approach prepares students for success in the corporate world by connecting classroom learning to real-life management practices.

INDUSTRY VISITS

At PIBM, students participate in 20+ industry visits each semester, exploring sectors such as manufacturing, retail, and corporate headquarters in and around Pune. These visits provide practical exposure to organizational functions and allow students to interact with industry professionals, enhancing their sector knowledge and skills. Key industries include automotive, FMCG, IT, retail, and more, offering students valuable insights into real-world business operations.

LIVE PROJECTS

At PIBM, Live Projects are integrated into the curriculum to provide students with practical experience and industry exposure. Working on over 50 projects across various domains like marketing, finance, and operations, students tackle real business challenges, design solutions, and implement strategies. These projects enhance their skills in analysis, communication, leadership, and problem-solving, bridging the gap between classroom learning and corporate reality.

INTERNSHIPS - BUILDING KNOWLEDGE & EXPERIENCE

At PIBM, students participate in two key internship programs: the Winter Internship Program (WIP) and the Summer Internship Program (SIP).

The Winter Internship Program (WIP), conducted after the first semester for 30-45 days, allows students to explore various sectors like Manufacturing, Retail, FMCG, IT, and Banking. This hands-on experience helps them understand company operations, departmental functions, and management processes, providing clarity on their preferred specialization.

Following the WIP, the Summer Internship Program (SIP), held after the second semester for 60-90 days, offers an in-depth experience in the chosen domain. Students gain a deeper understanding of job profiles, skill sets, and corporate dynamics, preparing them for their careers.

CORPORATES SPEAK

Mr. Ramesh Iyer
VC & MD
**MAHINDRA & MAHINDRA
FINANCIAL SERVICES**

"What sets PIBM apart is its commitment to catering to the individual requirements of students while aligning their training with sectoral and industry-specific needs. For example, students are trained for industries like Consumer Durables, FMCG, Paints, Financial & Banking, Telecom, and more. They are exposed to globally-recognized case studies and innovative corporate practices, equipping them to meet the evolving demands of the industry.

I am particularly impressed with how PIBM ensures students are not just academically sound but also ready to tackle real-world challenges. Their training approach bridges the gap between theory and practice, enabling students to seamlessly adapt to corporate expectations and thrive in their careers."

Mr. Ashish Chandra
CEO & MD
BHARTI AIRTEL

"I train PIBM students in sales & marketing, strategy and innovations where my mode of training is primarily making them understand the basic fundamentals and then taking them to ground reality i.e. practical application of those fundamentals e.g. product life cycle management as a fundamental and then how life cycle for smartphones and telecom industry in India is being applied and used in corporate world. I could also see the hunger for knowledge in PIBM students as they are curious to know how corporate actually uses various management concepts in real life."

Mr. C. P. Gurnani
MD & CEO
TECH MAHINDRA

"PIBM has consistently demonstrated innovative approaches to learning and student development since I first got associated with them a few years ago. The dedication of the placement cell and faculty in creating valuable opportunities for corporate interactions, industry exposure, and placements is truly commendable.

What stands out even more is how this drive is reflected in the students—they are always enthusiastic, eager to learn, and committed to gaining the best possible experiences for their future careers. The institution's focus on bridging the gap between academic knowledge and practical application truly prepares students to excel in a competitive corporate environment."

Mr. Arvind Hali
MD & CEO
**MOTILAL OSWAL HOME
LOANS LTD.**

"The objective of giving the training on practical aspects is that there is a huge difference in theory given in the book and what is actually applied in the corporate world. Practical knowledge is required to be imparted to students before them going to Corporate for their jobs. I always find PIBM actively participating in the development process of the students. PIBM is putting all the efforts so that when students go out for a corporate job, they are well equipped with all the relevant information, with all the relevant experience and can become capable of handling those tasks which are expected by the corporates when they join."

HEAR FROM OUR SUCCESSFUL ALUMNI

PIBM's advanced curriculum helped me gain knowledge about my domain and gain practical experience. The industry-aligned curriculum also helped me learn in-demand skills and boosted my confidence.

“ Tithi Chakraborty
Global Tax Consultant
DELOITTE

My learning journey equipped me with both theoretical insights and hands-on experience in the domains I focused on. I'm grateful to my mentors for their constant support and guidance, which helped me secure a role in a prestigious company.

“ Mihir Shishir Parkhie
EPS SCM - Consultant
COGNIZANT

Thank you PIBM for such a transformative journey with Finance-focused unique teaching pedagogy. The college helped me with training in Equity Research, Financial Statement Analysis, and Financial Modeling.

“ Ayush Sarda
Operations Analyst
BNY

In the last 2 years of the PGDM program at PIBM, I learned about marketing and operations with both theoretical and practical exposure. The college and mentors allowed to brushen up my skills to get confidence and getting placed at Bajaj Allianz General Insurance.

“ Muskan Pathan
Management Trainee
BAJAJ ALLIANZ

At PIBM, we get the opportunity to get Industry Exposure during our studies. This allowed me to learn in-demand marketing skills. The mentors at PIBM helps you in improving your overall skills by providing personalized training.

“ Shruti Shukla
Junior Management Officer
FEDERAL BANK

I am thankful for PIBM's rigorous training, industry exposure through dual internship programs, certification programs aligning with Marketing & Sales, JD-based training & real-world case studies which proved invaluable for getting placed at Dabur.

“ Abhishek Bhatt
Senior Sales Officer
